Systems Integration Discussion	<p>Mary presented a discussion handbook for the group to utilize in identifying system strategies. Major points in the discussion included:</p> <ul style="list-style-type: none"> • Principle No. 11: Emphasis for kids should be global aspects to include prevention, treatment needs, family issues, specific training for workforce, etc. • Cultural issues between the two systems-mental health and substance abuse-need to be thoroughly addressed. Strategies need to be multi-faceted i.e. contract language, training, incentives. • Workforce lacks cultural diversity including the immigration population in Nebraska, African Americans, American Indian, and gay/lesbian/bi-sexual/transgendered/questioning/inconclusive. • A diagram of the system should be circular and include bubbles for various factions. Mary will work on a new diagram to bring back to the workgroup at the next meeting. • The Quadrant of Care model was discussed and a question rose as to if the model will be adopted by the state. A recommendation was made to further discuss this issue at the next meeting. • Definitions presented should include integrated prevention as well as integrated screening, assessment, and intervention. Systems Integration Activity	<p>Workgroup members utilized the Comprehensive Continuous Integrated System of Care (CCISC) Model developed by Minkoff to guide discussion on systems issues. The following points were reviewed. Mary will develop a handout with the feedback for the next meeting. Other discussion points included:</p> <ul style="list-style-type: none"> • Recommendation was made to adopt the CCISC model for the roadmap and potentially use 12 steps as the framework for the roadmap.
